## **Important Guidance Regarding Vaccine Ordering**

### **Ordering Deadlines**

Effective Monday, January 31, 2022, the deadline for ordering COVID-19 vaccines in VAMS will be **NOON** on Mondays. This will allow DHEC staff to process orders in a timelier manner. Delivery schedules will remain unchanged.

### **Janssen Availability Limited**

Due to availability issues beyond our control our supply and delivery of Janssen has become unreliable and may continue to be for some time. We advise substituting supplies of either Pfizer or Moderna in place of Janssen until supplies become more predictable. We will issue further guidance as it becomes available.

### **Order Feedback in VAMS**

Beginning Monday, January 31, 2022, VAMS will no longer provide any in-application feedback for orders unless there is a reason your order cannot be fulfilled. Tracking information will still be available after an order has been processed.
